

1. Test Cases

1.0 Employee Management Module

No	Test Scenario	Test Data / Steps	Expected Result	Actual Result	Status
1	Add a new employee	Enter valid employee details and save	Employee record is created successfully	—	Not Executed
2	Add employee with missing required fields	Leave a required field empty and submit	System displays validation message	—	Not Executed
3	Update employee details	Modify an existing employee's details	Updated information is saved successfully	—	Not Executed
4	Deactivate employee	Select an active employee and deactivate the record	Employee is marked inactive/deactivated	—	Not Executed
5	Assign department	Select an employee and assign a valid department	Employee is associated with the selected department	—	Not Executed
6	Assign designation	Select an employee and assign a designation	Employee is associated with the selected designation	—	Not Executed
7	Assign reporting manager	Select a reporting manager for an employee	Reporting manager is saved successfully	—	Not Executed

1.1 Authentication & Authorization Module

No	Test Scenario	Test Data / Steps	Expected Result	Actual Result	Status
8	Login with valid credentials	Enter valid username and password	User is successfully logged in	—	Not Executed
9	Login with invalid password	Enter valid username and incorrect password	Login is rejected and error message is displayed	—	Not Executed
10	Login with invalid username	Enter an unregistered username	Login is rejected	—	Not Executed
11	Login with empty fields	Submit login form without credentials	Validation message is displayed	—	Not Executed
12	Employee role access	Login using Employee account	Employee can access only permitted employee functions	—	Not Executed
13	Manager role access	Login using Manager account	Manager can access permitted approval functions	—	Not Executed
14	HR/Admin role access	Login using HR/Admin account	HR/Admin can access administrative functions	—	Not Executed
15	Unauthorized module access	Try to access a restricted function using an unauthorized role	Access is denied	—	Not Executed

1.2 Leave Management Module

No	Test Scenario	Test Data / Steps	Expected Result	Actual Result	Status
16	Apply for leave	Select valid leave type and valid dates	Leave request is submitted successfully	—	Not Executed
17	Apply without leave type	Leave leave type unselected and submit	Validation message is displayed	—	Not Executed
18	Apply without dates	Leave required date fields empty	Validation message is displayed	—	Not Executed
19	Apply for leave exceeding balance	Request more leave days than available balance	Request is rejected or validation is displayed	—	Not Executed
20	View leave history	Open leave history for an employee	Previous leave requests are displayed	—	Not Executed
21	Manager approves leave	Manager opens a pending request and selects Approve	Request status changes to Approved	—	Not Executed
22	Manager rejects leave	Manager opens a pending request and selects Reject	Request status changes to Rejected	—	Not Executed
23	Leave balance after approval	Approve a valid leave request	Leave balance is automatically updated	—	Not Executed
24	Leave balance after rejection	Reject a leave request	Leave balance remains unchanged	—	Not Executed
25	View pending approval requests	Manager opens workflow/approval queue	Pending leave requests are displayed	—	Not Executed

1.3 Attendance Module

No	Test Scenario	Test Data / Steps	Expected Result	Actual Result	Status
26	Mark daily attendance	Mark an employee as present for a date	Attendance record is stored successfully	—	Not Executed
27	Mark employee absent	Mark an employee as absent for a date	Absence is recorded correctly	—	Not Executed
28	View monthly attendance	Select an employee and month	Monthly attendance summary is displayed	—	Not Executed
29	Calculate present days	Record multiple attendance entries and generate summary	Correct number of present days is displayed	—	Not Executed
30	Calculate absent days	Record absent attendance entries and generate summary	Correct number of absent days is displayed	—	Not Executed
31	Attendance used for LOP	Record applicable absence and run payroll	Correct LOP input is passed to payroll calculation	—	Not Executed

1.4 Payroll & Rule Engine Module

No	Test Scenario	Test Data / Steps	Expected Result	Actual Result	Status
32	Configure salary components	Add valid earning/deduction components	Salary component configuration is saved	—	Not Executed
33	Calculate gross salary	Provide valid salary components and run calculation	Gross salary is calculated correctly	—	Not Executed
34	Calculate deductions	Apply configured deductions	Correct deduction amount is calculated	—	Not Executed

35	Calculate net salary	Run payroll with earnings and deductions	Net salary is calculated correctly	—	Not Executed
36	Apply LOP deduction	Provide valid LOP input and run payroll	Appropriate LOP deduction is included	—	Not Executed
37	Apply tax slab rule	Configure a tax slab and run payroll	Tax is calculated according to the configured rule	—	Not Executed
38	Apply PF/ESI rule	Configure applicable PF/ESI rules	Applicable deduction is calculated	—	Not Executed
39	Run monthly payroll	Select payroll month and execute payroll	Payroll is generated for eligible employees	—	Not Executed
40	Generate payslip	Complete payroll and open an employee payslip	Payslip displays salary and deduction details	—	Not Executed
41	Pro-rata calculation	Use an employee scenario requiring pro-rata salary calculation	Pro-rata salary is calculated according to configured rules	—	Not Executed
42	Arrear recalculation	Apply an applicable salary change/arrear and recalculate	Arrear amount is reflected in payroll	—	Not Executed
43	Payroll transaction handling	Start a payroll run and verify saved payroll data	Payroll data is stored consistently without partial/incomplete results	—	Not Executed

1.5 Report Generation Module

No	Test Scenario	Test Data / Steps	Expected Result	Actual Result	Status
----	---------------	-------------------	-----------------	---------------	--------

44	Generate individual payslip	Select an employee and payroll month	Individual payslip is generated	—	Not Executed
45	Generate payroll register	Select a payroll month and generate register	Monthly payroll register is displayed	—	Not Executed
46	Generate leave summary	Select employee/month and generate report	Leave summary is displayed correctly	—	Not Executed
47	Generate attendance report	Select employee/month and generate report	Attendance summary is displayed correctly	—	Not Executed
48	Export/print report	Open a generated report and use available export/print function	Report is exported/printed successfully	—	Not Executed

1.6 Admin / Configuration Module

No	Test Scenario	Test Data / Steps	Expected Result	Actual Result	Status
49	Define leave type	Add a valid leave type	Leave type is created successfully	—	Not Executed
50	Define leave entitlement	Configure entitlement for a leave type	Entitlement is saved successfully	—	Not Executed
51	Modify leave configuration	Edit an existing leave configuration	Updated configuration is saved	—	Not Executed
52	Define salary component	Add a valid salary component	Salary component is saved	—	Not Executed
53	Modify salary component	Edit an existing salary component	Updated component is saved	—	Not Executed
54	Configure tax slab	Add or modify a tax slab rule	Tax slab configuration is saved	—	Not Executed
55	Manage departments	Add or modify a department	Department information is updated successfully	—	Not Executed

56	Manage roles	Configure an appropriate user role	Role configuration is saved and access follows the assigned role	—	Not Executed
